Subject: Sims Sampling Tuesday

Hi Peter and Melisa,

Based on Peter's description of the sampling today, and how he had a good view from the wharf looking down at the boat and the sampling operations, and was able to verbally communicate from the wharf, we've decided that at least in the morning we will not need to be on the boat to observe the sampling. Instead we will observe from the wharf in the morning. In the afternoon we may want to go out on the boat. Please update Jeff Wallace of this decision

Melisa, please inform appropriate people at the entrance to Sims Metal, that I will be arriving between 8 am to 9:00 am, and Kathy Baylor from EPA will also be with me.

Thanks,

Juliet Hannafin
